Enrollment Wait List

School Year 2011-12

As of August 9, 2011

How to use this list: Find your child's birth date (or birth date and initials in cases of duplicates) under the grade you are applying for. This list is ranked by lottery number and shows where your child sits on the current list. This list DOES NOT account for admission preference factors, which currently include gender balance, children of staff, siblings of enrolled students, San Francisco residency and/or retention of current students. This list will be updated as offers, acceptances and new information is processed.

Every effort has been made for data accuracy. However, data entry error may occur from time to time. Updates will be made to this list as information and/or corrections are received
